

Leadership Webinar - Part I

Beginning The Life Long Journey of Becoming an Effective Leader

Overview

The purpose of this two-day, six-hour long, four module webinar is:

- To deliver an interactive Leadership Webinar designed for Indian Professionals, using experience based knowledge and information — different than “run-of-the-mill” theoretical leadership training.
- To Prepare the new as well as mature Indian managers to take a more active leadership role
- To assist the managers and “technocrats” to become leaders in their community and workplace
- To establish a mentor-mentee relationship, following the age-old Indian tradition of “Guru-Disciple” interaction

Format

- Delivered in four 90-minute modules scheduled from 6:00 PM IST to 9:00 PM IST.
- The participants will be required to complete some reading assignments after the first two modules to prepare for the next two modules.

Who Should Attend

- This "Leadership Webinar" is for interested individuals in India who would like to receive an experience-based training for the Life-Long Journey of Becoming an Effective Leader

After participating you should be able to answer the following questions:

- What are the traits of an effective leader?
- How can I be a better leader?
- How can I motivate my team members to be more effective?
- How do I communicate effectively as a leader?

You have to put together what you learn about leadership and what you learn about yourself to figure out how to become an effective leader with your own style
